DVR-FHD660G

GPS vehicle recorder

Genius has launched a new digital vehicle recorder - DVR-FHD660G. It features an integrated GPS receiver that syncs with Google Maps for en route tracking of geographical coordinates and speed.

DVR-FHD660G features a high performance, light sensitive optical lens consisting of six glass elements with an F2.0 aperture to capture extremely clear and vivid videos during the day and at night. In addition, a built-in G-sensor is able to detect unexpected motion changes in case of a collision and will immediately record and secure video files for evidence or future analysis.

It also features a security design that enables motion detection to automatically detect movement near or around your vehicle to record videos even when you are not in the vehicle.
The DVR-FHD660G is the perfect digital vehicle recorder and road companion for ensuring your peace of mind whether on daily drives, road trips, or just cruising around town.

WDR (Wide Dynamic Range)
WDR technology produces brilliant and clear video clips under high contrast, and bright reflective light.

Use the car software in the CD disk for playback and the GPS tracking video.

- PN: 32300118101

System Requirements:

- Pentium 4 Processor (or above), 2.6GHz, with Windows 8/7 Service Pack 2
- 1GB RAM or Higher200MB free disk space
- Available USB Interface
- Recommended screen resolution 1024 X 768 pixels or higher.

Package Contents:

- Vehicle recorder
- Cigarette vehicle adaptor
- Suction unit for dashboard/windshield
- CD car software
- Multi-language quick guide

WEEE information:

- Unit Weight (g):296g
- Unit Size (LxWxH): 66 x 60 x 21 mm
- Package Size (LxWxH): 160x 130 x 80mm
- PCs/Carton: 10pcs/Carton
- CUFT: 0.735 CU'FT/CTN: 440 x 295 x 200 mm
- EAN: 4710268 248248 / UPC: 091163 248248
